

The logo features a blue triangle pointing right, followed by the text 'ClickView'. 'Click' is in white and 'View' is in blue.

▶ ClickView

**Secondary Schools**

# Why ClickView?

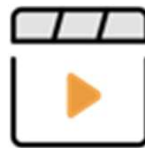

## **Curriculum-aligned videos**

Thousands of videos created or curated by ClickView in Australia, and aligned to the Australian Curriculum.

## **Turning passive viewing into active learning**

Empowering teachers to add built-in questions to any video to create active learning experiences.

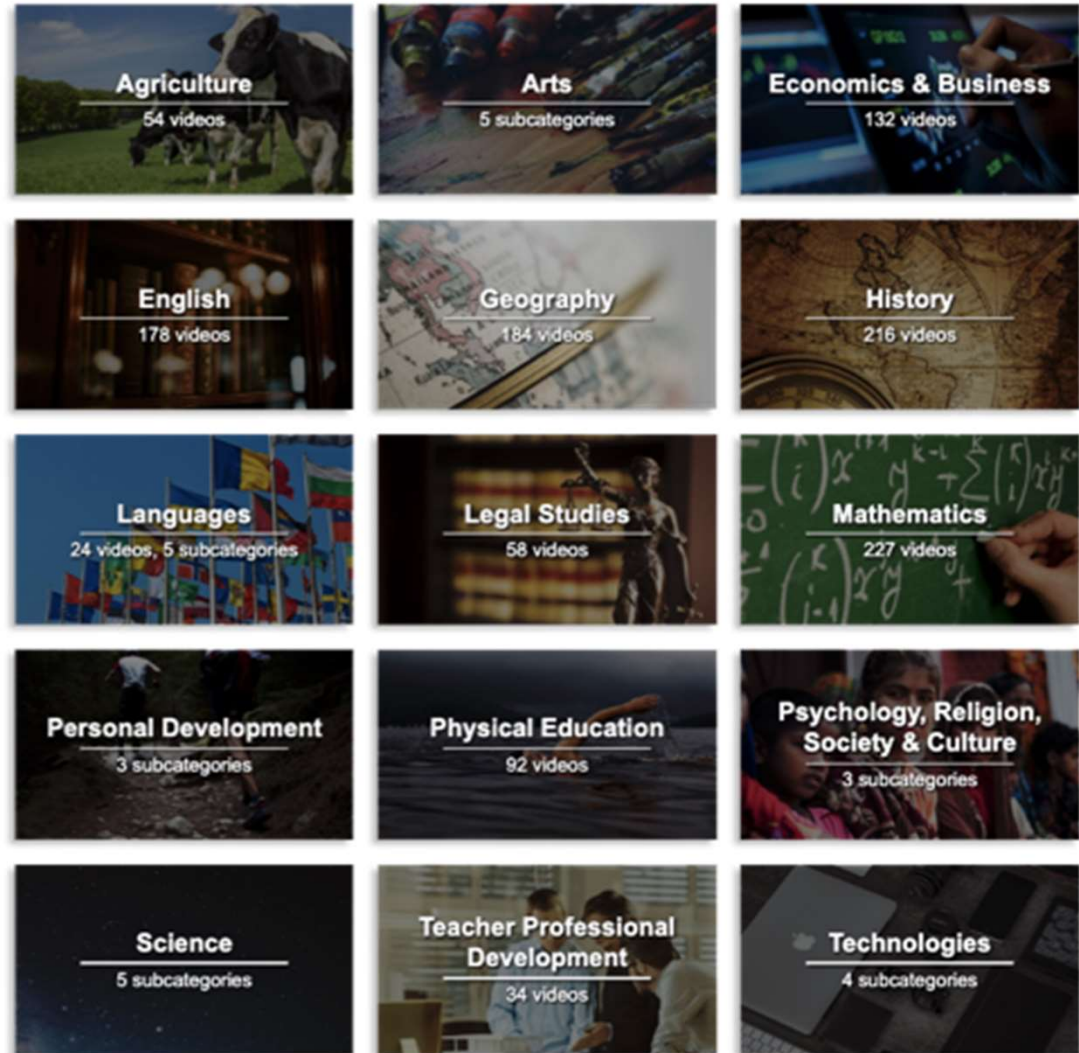

## **Educational TV programmes**

Ad-free recordings of current educational TV, including documentaries, news and feature films.

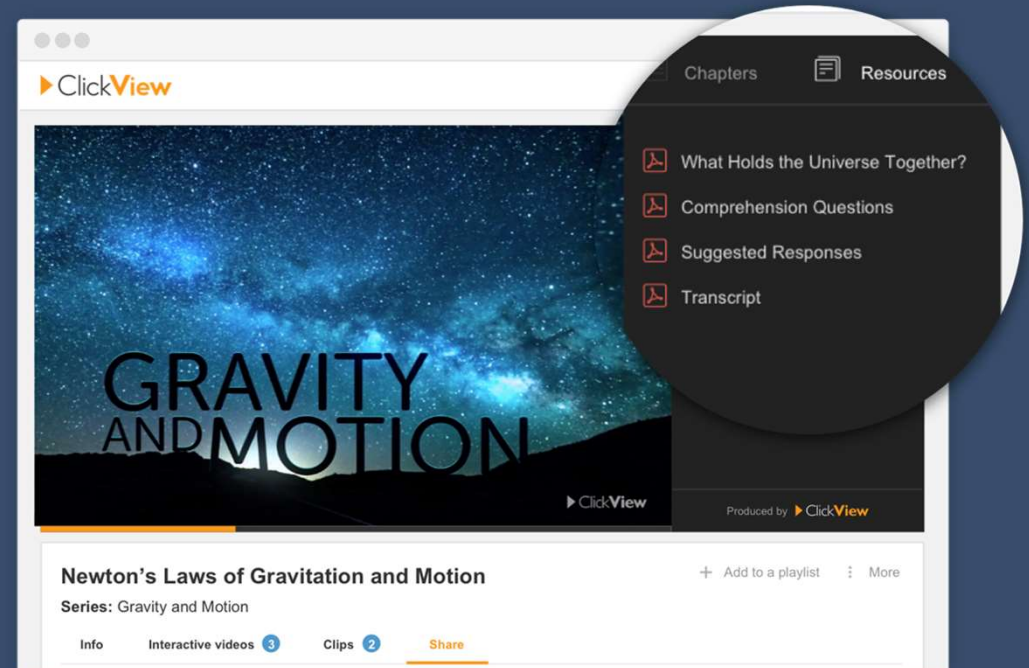

# Secondary Video Library

Over 4,000 high quality videos, aligned to the curriculum and supplementary teaching resources for secondary schools.

# Supplementary Teaching Resources

Each ClickView Original Series is accompanied by teaching resources, packed full of engaging activities that are linked to the subject and also cross-curricular.

The screenshot shows a ClickView video player interface. The video title is "Newton's Laws of Gravitation and Motion" and it is part of the "Series: Gravity and Motion". The video thumbnail features a starry night sky with the text "GRAVITY AND MOTION" overlaid. Below the video player, there are navigation tabs: "Info", "Interactive videos 3", "Clips 2", and "Share". A "Resources" menu is open on the right side, listing: "What Holds the Universe Together?", "Comprehension Questions", "Suggested Responses", and "Transcript". The ClickView logo is visible in the top left corner of the player and in the bottom left corner of the overall image.

# ClickView Original Series

ClickView produces its own educational videos in their Melbourne studio, as well as curate content from the world's best educational providers.

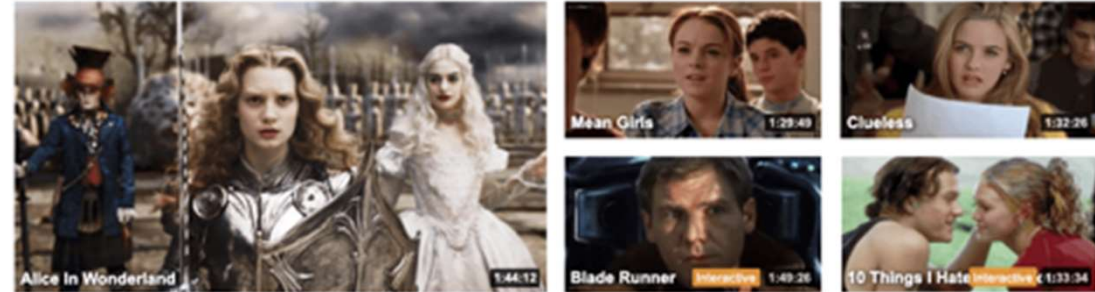

# Broadcast Television

Staff can access and permanently save ad-free recordings of any free-to-air TV programme from the last two weeks.

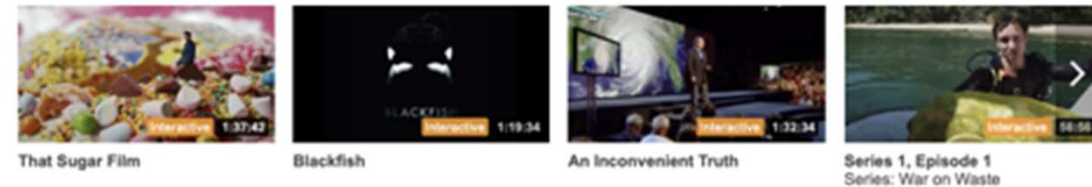

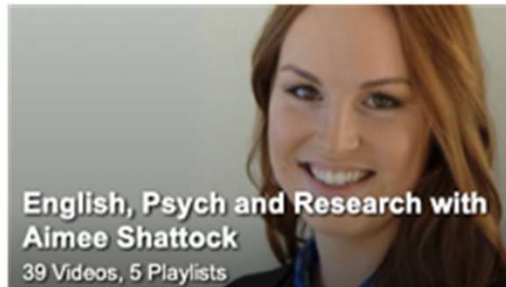

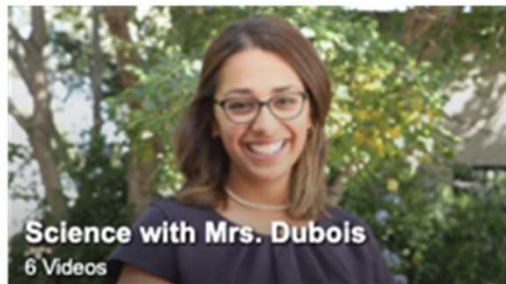

## Adaptations >

Classic texts re-invented for a modern audience.

## Popular Documentaries >

# Custom Content Created by Users

ClickView works innovative Australian educators to create featured channels of quality flipped videos, accessible to the whole community.

# ClickView Interactive Videos

Transform any video into an active learning experience, by overlaying a set of questions onto the video timeline for students to answer, and be able to track their progress.

# Library Editor

Library Editor is ClickView's new library management tool, enabling administrators to easily manage your school video library and display all tasks conveniently in one place.

The screenshot displays the ClickView Library Editor interface. At the top left is the ClickView logo. A search bar contains the text "Search within your library...". On the top right, there are buttons for "Upload", a notification bell, and a user profile icon labeled "KH". Below the search bar is a navigation menu with "Library Editor" (highlighted), "Staff Requests", "Content Updates", and "Video Access". On the left side, there is a sidebar with a school logo and a list of subjects: "School Library", "Business Studies", "English", "Geography", "History", "Mathematics", "Science", and "Technologies". The main content area, titled "School Library", features a grid of eight subject categories, each with a representative image and a three-dot menu icon in the top right corner: Business Studies (hand holding a tablet), English (classroom interior), Geography (map and ruler), History (old map), Mathematics (hand writing on a chalkboard), Science (space background), Technologies (laptop and smartphone), and Visual Arts (various art supplies).

# Seamless LMS and LCS integration

Easily create video-based assignments by embedding videos directly in your existing LMS and LCS.
