

# Facilitating distance education with myEdOnline

By Kim Edwards

So how do we  
do it?

# myEdOnline: a personalised, distance education tool that enables teachers to:

- Remotely create and deliver engaging **individualised learning** for students
- **track** individual student progress
- provide **just-in-time 1-on-1 feedback** in real-time
- ask students' questions and track their responses. It **makes student's learning visible**.
- view each student's **entire learning pathway** and with one click give them the information and skills they need

# Enables students to:

- **learn** at **their own pace** anytime, anywhere and **independently negotiate their own learning paths**
- remotely **access** and **complete** their work
- **choose** how they show their own learning
- **develop** the **skills** to become independent, self-managed learners
