

# Victorian Global EdTech & Innovation Expo

6-8 April 2021

**Daily agenda**

# Tuesday 6 April 2021

## K-12

### AM Session

**7:00am** Opening Remarks

**7:10am** EdTech Company Showcase and Q&A - Express Sessions

**7:35am** **Rethinking assessment in a digital world**

Accurate and descriptive assessment is key to understanding student outcomes and informing key areas for growth. Yet, assessment is often considered one of the most challenging aspects of learning online. Whether it be ensuring academic integrity, accessibility or the consistent implementation of rubrics, student assessment is an area of education that holds incredible opportunity for digital transformation. This session will explore how the power of technology can be harnessed to rethink assessment in schools.

**8:05am** EdTech Company Showcase and Q&A - Express Sessions

**8:30am** Virtual EdTech Trade Show and 15-minute Product Demos

Closing Remarks

**9:30am** Event Close

### PM Session

**5:00pm** Opening Remarks

**5:10pm** EdTech Company Showcase and Q&A - Express Sessions

**5:35pm** **Teaching Toolmix right: How best to blend digital & non-digital resources to maximise student outcomes**

Many schools across the globe continue to teach remotely. This session examines how the digital resources we came to rely on when learning from home can be more effectively used to support learning in the classroom. The intersection of digital and non-digital resources uniquely enables teachers to focus their classroom time on specific areas of academics, along with social and emotional learning.

**6:05pm** EdTech Company Showcase and Q&A - Express Sessions

**6:30pm** Virtual EdTech Trade Show and 15-minute Product Demos

Closing Remarks

**7:30pm** Event Close

# Wednesday 7 April 2021

## Higher Education

### AM Session

**7:00am** Opening Remarks

**7:10am** EdTech Company Showcase and Q&A - Express Sessions

**7:35am** **Driving student success with analytics and personalised support**

Data-driven decision making has been applied to most spheres of the corporate world to improve returns and inform investment. Yet, there remains a gap in the use of the insights offered by data to drive returns for students. This session will explore avenues of student success through the use of data analytics to create individualised interventions.

**8:05am** EdTech Company Showcase and Q&A - Express Sessions

**8:30am** Virtual EdTech Trade Show and 15-minute Product Demos

Closing Remarks

**9:30am** Event Close

### PM Session

**5:00pm** Opening Remarks

**5:10pm** EdTech Company Showcase and Q&A - Express Sessions

**5:35pm** **Digital learning and the expectation of university students in Australia**

University students have been opting to attend lectures remotely for a very long time – the pandemic forced that for every student.

This session will examine the current expectations of university students and exploring how that can be met with digital technologies, integrated with physical locations across a campus.

**6:05pm** EdTech Company Showcase and Q&A - Express Sessions

**6:30pm** Virtual EdTech Trade Show and 15-minute Product Demos

Closing Remarks

**7:30pm** Event Close

# Thursday 8 April 2021

## Workforce

### AM Session

**7:00am** Opening Remarks

**7:10am** EdTech Company Showcase and Q&A - Express Sessions

**7:35am** **The power of connection**

Through the partnership of technology and learning we can connect at scale. The question is: how do we connect with meaning? And how can we learn in collaboration with others? In this session we explore, with Cahoot Learning partners Terri Givens and Andrea Clarke, the importance of building trust and connection through relationships via learning.

Why is connection so important for learning? How can trust be built for and between learners? What kind of change is possible?

**8:05am** EdTech Company Showcase and Q&A - Express Sessions

**8:30am** Virtual EdTech Trade Show and 15-minute Product Demos

Closing Remarks

**9:30am** Event Close

### PM Session

**5:00pm** Opening Remarks

**5:10pm** EdTech Company Showcase and Q&A - Express Sessions

**5:35pm** **Equipping the future workforce: teaching skills online at scale**

Learning online was previously considered the domain of digital skills, such as IT and software engineering. Increasingly, we see a need to learn practical skills remotely, driven by reskilling to meet the needs of the modern economy. In partnering with education institutions and companies, EdTech offers new levels of interaction when learning skills online. This technology – coupled with pedagogy dedicated to teaching in digital environments – can offer new opportunities to deliver skills and training.

**6:05pm** EdTech Company Showcase and Q&A - Express Sessions

**6:30pm** Virtual EdTech Trade Show and 15-minute Product Demos

Closing Remarks

**7:30pm** Event Close
